Simple steps for REF open access

1 **CONNECT**

Connect your ORCID and enable auto-claiming in Symplectic Elements, to help identify your articles

One-off action

iD

MAKE IT OPEN

2A **CHECK**

Is your article:

- **Open access** on publisher website immediately after publication?
- Under an **open licence,** e.g. CC BY**?**

If so, it is REF compliant

If not (or unsure)

2B **DEPOSIT**

If in doubt, deposit your article's author-accepted manuscript in ORA as soon as it is accepted (and within 3 months of publication)

This will make sure it is REF compliant
